

RAYMOND B. CANCELAO

Bachelor of Science in Computer Engineering

+63 9154528819 • oalicznacdnomyar@gmail.com • <https://www.linkedin.com/in/raymond-cancelao/> • Calamba, Laguna

Summary

I am an aspiring Batangas State University computer engineering student seeking an experience in the I.T field with your company. I am eager to learn new things, gain and increase my knowledge, and approach problems with a positive attitude. Also aiming to improve and learn more about the profession and building real-world experience. I can be trusted to assist your company in achieving its goal.

Skills

Personal Skills:

Understand how programming works • Quick learner • Ability to accept feedback • Problem Solving • Willingness to learn • Analytical thinking

Technical Skills (Has a basic understanding/Used in school activities):

HTML5 • static web development • CSS3 • JAVA • PYTHON • C++ • Machine Learning

Tools:

Microsoft Office(Excel • Word • Powerpoint) • Netbeans • VS Studio Code • Spyder • Arduino • Figma(Wireframe) • Spyder • Google Colab • RoboFlow • Unity 3D • ChatGPT

Experience

Calamba City Hall

Calamba, Laguna

SHS Work Immersion

2019

- While on site, assisted with field works and tasks assigned by the engineers from the engineering department.
- Compiling and storing the project documents.

Creotec Philippines Inc.

Sta. Rosa, Laguna

OJT Training

2023

- Understanding of workplace dynamics and operations.
- Developed a simple shooting game using Unity 3D, showcasing skills in game design, asset integration, and collaboration.
- Leveraged Excel to perform data visualization, employing 7 quality tools for insightful analysis and effective presentation.
- Utilized mBot robotics platform to design and implement specific tasks, showcasing proficiency in robotics.

Webinars

BREAKTHROUGH IN ETHICAL HACKING — Batangas State University

THE IMPORTANCE OF CLOUD COMPUTING IN APPLICATIONS DEVELOPMENT — Batangas State University

FUNDAMENTALS OF WEB DEVELOPING USING PHP — Batangas State University

Education

Kapayapaan Integrated School

Calamba, Laguna

JHS to SHS

2019

Batangas State University

Batangas City,
Batangas

BS Computer Engineering(GPA: 1.2 - 4th year 1st semester)

2023

Interests & Projects

Calculator

First project that i created which is part of our academic activities. it was created using JFrame in Java

Tuberculosis Detection in Radiographs

A deep learning approach project that utilized a mask R-CNN algorithm to distinguish between normal and a tuberculosis based on the white spots using plain radiograph.

Personal Portfolio

This is currently my ongoing project and it is not yet completed. It is developed using HTML, CSS, and a small portion of JavaScript that I obtained from GitHub for incorporating animations.

Interest in web development and data analysis

I am highly interested in expanding my skills in both web development and data analysis to leverage data-driven insights and learn about dynamic web applications.
